3.	what percentage of 2024 income was service?	Services are a major part of GE Vernova’s businesses and have generated reliable and growing cash flow. For more information on the contributions of our services businesses to our financial results, please refer to our consolidated and combined statement of income (loss) in our Annual Report on Form 10-K, including information about our 2024 revenue from the sale of services.
4.	With the new policy changes of the new administration, how is that affecting business? Does GEV intend to keep the wind business?	The new U.S. administration has declared the existence of a national energy emergency. We believe GE Vernova’s portfolio of businesses is well-positioned to deliver on the products and services required to address this emergency. We also believe that wind will play an important role in fulfilling growing global demand for electricity, but due to ongoing U.S. policy uncertainty and permitting delays, we remain cautious on when we will see growth inflection in U.S. orders.
